2 pieces of DSP measuring 1-1/8" x 2-1/2"  
Sentiment from Eastern Palace stamps  
Medallion cut from Eastern Palace framelits

## PAGE 3

To decorate panels on third page you need  
2 pieces of Very Vanilla card 1-1/8" x 2-1/2"  
4 pieces of DSP measuring 1-1/8" x 1-1/8"  
2 pieces of DSP measuring 1-1/8" x 2-1/2"  
Sentiment and swirl from Eastern Palace stamps

## PAGE 4

To decorate panels on last page you need  
2 pieces of Very Vanilla card 2-1/2" x 2-1/2"  
4 pieces of DSP measuring 1-1/8" x 2-1/2"  
Sentiment from Birthday Blooms stamp set  
Bottom panel has been inked using a medallion as a mask with Bermuda Bay ink

The card measure 5  $\frac{1}{2}$ " x 5  $\frac{1}{2}$ " when finished.

### To decorate the card you will need

5 pieces Very Vanilla card stock measuring 2  $\frac{1}{2}$ " x 2  $\frac{1}{2}$ "

2 pieces Very Vanilla card stock measuring 1  $\frac{1}{8}$ " x 2  $\frac{1}{2}$ "

8 pieces of patterned paper (DSP) measuring 1  $\frac{1}{8}$ " x 2  $\frac{1}{2}$ "

8 pieces of patterned paper (DSP) measuring 1  $\frac{1}{8}$ " x 1  $\frac{1}{8}$ "

Start with 4 pieces of card stock measuring 5-1/2" x 2-3/4"

Score all 4 pieces at 1-3/8" and 4-1/8"

Match up two of the scored pieces of card so they are close together, you can use tacky tape to keep them in place if necessary!

Lay out the card pieces as shown in picture so both pieces have score lines in a horizontal direction

Add glue to each corner as shown by black squares in picture. Do not glue past the score lines or anywhere else you need to keep glue to this marked area to ensure the card mechanism will work once finished.

Take the third piece of scored card and with the score lines in a vertical direction this time, lay it on top of the glued card, lining up the card to fill the top half.

Now match up the final piece of scored card, keeping scored lines vertical, set in place, on top of the glued card. If using wet glue allow time for glue to dry before opening card.

Once glue is dry, try opening card up and folding and burnishing score lines. Use a bone folder to create firm creases. Be careful to fold on each of the score lines only. This is a tricky step, just take your time.

When trying out the movement of your never ending card, if the card is sticking in any direction, you can just trim the edges a little.

This is the front of your card and it is now ready to decorate!
