

Pop Up Panel Card Template

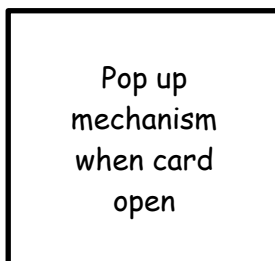

Created by I Create Craft - for personal use only
www.icreatecraft.weebly.com

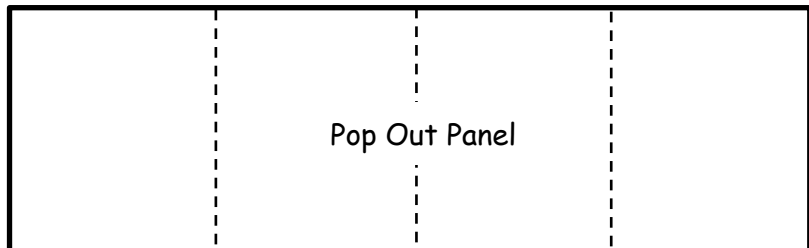

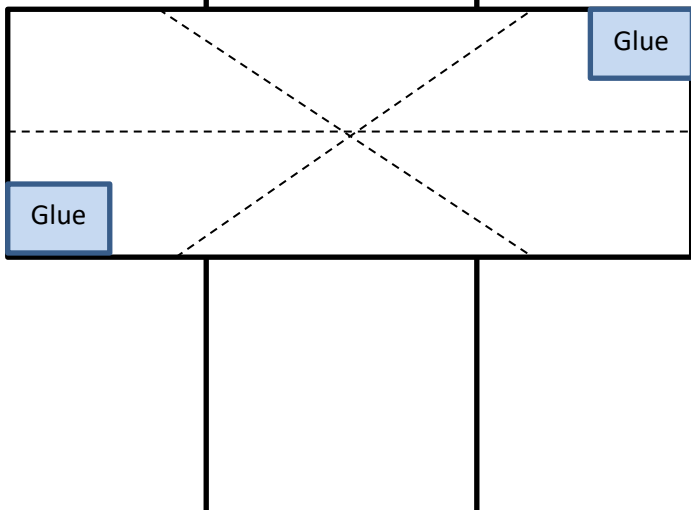

Mechanism - Use a piece of card measuring 8" x 3 1/2" Make a mark at 2 1/4" and at 5 3/4" top and bottom, create a diagonal score line matching up the marked points these will be mountain folds. Fold in half on the long side at 1 3/4". Push together to create an origami squash fold (see pic)

The first part of the pop up mechanism is glued into the card base, the top point of the triangle is glued lining up on the centre score line of the base card (see pic) glue on both sides of the card

To make the pop out panel the card measures 10" x 3 1/2" score at 2 1/2", 5" and 7 1/2" and accordion fold to create a W shape. Layer with 4 pieces of card or paper measuring 3 1/4" x 2 1/4"

To glue the pop out panel on to the card mechanism apply glue to top right hand side and bottom left hand side of mechanism **ONLY** and place pop out panel on top of mechanism allow glue to dry before trying
